

Datasheet

End Plate for 2.5mm Terminal ZAP

Stock No: 897-7147

Product Details

PaPiRus ePaper/eInk Display HAT for Raspberry Pi

The PaPiRus displays are a family of HATs for use with our range of Raspberry Pi products. The HATs are available in three different sized ePaper displays — small (1.44 in), medium (2.0 in) and large (2.7 in). There is also a multipack containing one of each size.

ePaper displays were designed to present display text exactly like ink to paper. Plug the PaPiRus HAT on top of your Pi and you are ready to go with your project.

Features & Benefits

- 3 different sizes
- Energy saving
- High resolution
- Wide viewing angle
- Great at reflecting light
- Breakage detection
- Holds text and images indefinitely
- Open wave form
