RS Pi 4 Accessories Kit

RS Stock No:

Product Details

This Raspberry Pi 4B starter kit provides the accessories necessary for beginners to get started. Two pieces 4K HDMI high-definition cables can provide dual-screen output. The 5V 3A switching power supply with replaceable plugs allows users to switch on and off the power without frequent plugging and unplugging. The operation of the card reader provides the ability to write cards and backup cards. The aluminum case provides good protection for the raspberry pi board. Have fun and start your Raspberry Pi discovery.
